Themes of the day:

We will review the list of project proposals obtained so far as well as new ones received. We will review the preliminary rankings as produced by your questionnaire input. We will discuss the use of our prioritization funnel including the funnel criteria for qualifying and disqualifying specific projects.

We will jointly apply the funnel to the gross list of project proposals available and we will aim at creating a shortlist of two project proposals.

We will work to flesh out the two selected projects and decide on a course of action to take these projects forward before next meeting expected early May, 2020.

Participating Wind Logistics Group organizations:

Siemens Gamesa Renewable Energy, Port of Esbjerg, Vestas, Head Energy, Energy Innovation, MHI Vestas, DIS, and TINV/MDC/Panticon.
